Subject: purpose of the EPA

I worry about the future of the EPA and the positive regulations that have been put in place to protect our country. I want to know if it is true that you, Scott Pruitt, feel it is okay to destroy the regulations that have been put in place to protect our environment because you have been put into this position and because the Trump administration has allowed you to do so?

Please do not take this position lightly. Please care about the intricate balance of our world.

A concerned citizen,

Julaine Keyser
